

Aim

The aim of the Pedagogical Formation Education Coordination Office is to enhance the professional and pedagogical competencies of preservice teachers and to support the training of qualified teachers. In this context, it is aimed that preservice teachers become individuals who can transfer theoretical knowledge into practice, design courses suitable for different student needs, and maintain their professional development.

Mission

The mission of the Pedagogical Formation Education Coordination Office is to support the training of qualified teachers in the field of education, to help preservice teachers develop their professional knowledge and skills, and to encourage them to design learning environments as innovative individuals who value ethical principles. In this way, the quality of education in society is enhanced by training future educators, and strong foundations are established for a sustainable future.

Vision

The vision of the Pedagogical Formation Education Coordination Office is to provide preservice teachers with comprehensive and high-quality training, ensuring they are professionally well-prepared. It aims to support the continuous development of preservice teachers by integrating innovative approaches, research-based practices, and technology. The core of this vision is to contribute to a future where qualified teachers are valued, educational quality standards are elevated, and every student receives the best possible education.
